

Client New License Requirements

New license requirements have been explained and information has been provided as to where to obtain additional information regarding licensing requirements. Information has been provided prior to releasing the vehicle back for client use.

New Licensing Requirements:

- **Must** obtain a new license with the “P” (IID Installed) restriction and authorized program completion date included, and
- **Must** return to a Smart Start service center thirty (30) days after installation for the first monthly monitoring appointment as scheduled by the service center.

Additional Licensing Information:

- Clients that are seeking additional information regarding their driver’s license can visit the Florida Department of Highway Safety and Motor Vehicles website located at:
<http://www.flhsmv.gov/ddl/IID.html>
- Further information can be obtained at the *Frequently Asked Questions* page, located at
<http://www.flhsmv.gov/ddl/IIDFAQS.html>

I have been informed of each license requirement and where to locate additional information regarding licensing requirements.
